Professional Summary

Java Full Stack Developer with 5+ years of experience building scalable, cloud-ready applications using Java, Spring Boot, React, and microservices architecture. Strong expertise in designing REST APIs, low-level design, design patterns, Docker, Kafka event streaming, caching, and cron job scheduling. Experienced in delivering enterprise-grade solutions across high-traffic news portals, e-commerce, CRMs, and LMS platforms. Adept in Agile/Scrum, modular architecture, and performance-driven development.

Technical Skills

Java / Spring Boot	ReactJS	REST APIs	Microservices	Design Patterns
MySQL / PostgreSQL	Docker	Kafka	Git / Linux	JIRA / Agile
				Unit Testing / CI/CD

Professional Experience

Greynium Information Technologies – Bangalore

Jan 2024 – Present

Full Stack Developer

Projects: OneIndia.com, Filmibeat.com (High-Traffic News & Entertainment Portals)

- Developed REST APIs integrated with ReactJS frontend for dynamic content delivery.
- Built cron jobs and caching mechanisms for high concurrent user handling.
- Implemented Kafka for real-time event streaming and content updates.
- Worked extensively with JIRA for Agile/Scrum project management.
- Mentored juniors on best practices, modular architecture, and code optimization.

SIE Brains Technologies Pvt. Ltd. (Client: Laerdal Medical) – Bangalore

Jun 2023 – Dec 2023

Full Stack Developer (Contract)

Project: rqiOneStop LMS

- Developed Learning Management System modules: course management, assessments, reporting.
- Optimized React performance using React.memo and useCallback to prevent unnecessary re-renders, improving UI responsiveness and efficiency.
- Built RESTful APIs and integrated with responsive frontend.
- Followed Agile/Scrum methodology, managed tasks in JIRA.

Stellar Track Technologies Pvt. Ltd. – Bangalore

Dec 2021 – Dec 2022

Full Stack Developer

- Developed CRM and Enterprise Application modules: Task Management System, Meeting Scheduler.
- Implemented REST APIs and workflow automation.
- React performance optimization using React.memo and useCallback

- Optimized database queries and enhanced application performance.

Meritzeal Marketing Solutions – Bangalore

Apr 2021 – Dec 2021

Full Stack Developer

- Developed E-commerce web application with cart, checkout, and payment integration.
- Integrated payment gateways (Razorpay, PayPal, Stripe).
- Designed relational database schema for products, orders, payments.
- Built REST APIs for frontend integration and order management.

Vertex Techno Solutions– Bangalore

Apr 2018 – Sept 2020

Desktop Support Engineer

- Provided end-to-end desktop support for employees, including hardware, software, and peripheral troubleshooting.
- Installed, configured, and maintained Windows OS and office productivity software.
- Managed user accounts, permissions, and security policies.

Quess Corp – Bangalore

Jan 2017 – Apr 2018

Desktop Support

- Managed user accounts, group policies, and permissions using Active Directory.
- Troubleshoot network connectivity issues, VPN, LAN/WAN, and DNS problems.

Education

- MCA – Master of Computer Applications, Bangalore University, 2016
- BCA – Bachelor of Computer Applications, Bangalore University, 2013

Side Projects / Learning Projects

- Spring Boot + ReactJS Projects – LMS clone / News Portal clone – GitHub Link
- Microservices & Docker Demo – Containerized services with REST API communication
- Implemented Design Patterns: Singleton, Factory, Observer, Strategy in mini-projects
- AWS Basics / CI/CD pipelines – hands-on learning

Achievements / Highlights

- Delivered high-traffic portal features (OneIndia, Filmibeat) handling millions of users.
- Worked in product-based environments (Laerdal Medical, Stellar Track) using Agile/Scrum processes.
- Transitioning to Spring Boot + React full stack, with hands-on side projects demonstrating enterprise-level architecture.
- Familiar with JIRA, Kafka, Docker, RBAC, cron jobs, caching, microservices architecture, and design patterns.
